ABOUT ORCA BAGS

ORCA was created to provide the best, customized bags and accessories for today's working broadcast and cinema professionals worldwide.

Our philosophy is simple: design products that reflect the input of working industry Pros, and give them the best solution to get the job done easily, comfortably and efficiently.

ORCA's Research and Development team has been part of the cinema, sound and TV industry for over 30 years. This experience allows us to provide the finest gear bags and accessories, bar none.

Our R&D team has crafted the entire ORCA line using the most advanced technologies and superior materials available.

The result is an unmatched, field-proven line of smart bags and accessories, expertly designed to carry and protect delicate video, lighting and sound gear to assist users on set, wherever they may be shooting.
INNOVATIVE CARRYING SOLUTIONS
FOR BROADCAST PRODUCTIONS
THE ORCA SOUND/AUDIO MIXER
BAGS COLLECTION
The ORCA Audio Mixer Bags are the first in the world to offer maximum protection for the sensitive gear carried inside, all thanks to their durable external aluminum frame, internal honeycomb frame and layers of foam and EVA. They are meticulously designed by audio experts to carry, protect and enable effective operation of audio mixers in any location.

The ORCA Audio Mixer Bags come in different sizes, so are able to hold the majority of audio mixers on the current market.

*OR-268, OR-270, OR-272, OR-280, OR-27, OR-28 & OR-49 have different features. For more information, please visit the products pages on our website: www.ORCAbags.com

OR-444 ORCA 3S (SPINAL SUPPORT SYSTEM) SOUND HARNESS

MODEL: OR-444

The OR-444 ORCA 3S Spinal Support System is a patented design that helps protect and support audio operators while working outdoors.

Our number one goal is to provide support to the operators’ backs after many years of carrying heavy equipment.

The 3S Harness comes in one size that fits most people. The OR-444 also comes with a back pockets and a USB portal with a built-in cable.

**Modular**
Can be used with just the waist belt, the top vest, the waist belt with a top vest or all combined with the patented Spinal Support System.

**Roller buckles**
The 3S waist belt has two unique “rollers buckles” that help tighten the belt around the user’s hips, ensuring perfect fit and weight distribution. The waist belt thigh system is one of a kind - a unique design for ORCA Bags!

**Adjustable Spinal Support System**
The unique patented Spinal Support System has a special pneumatic and spring system that helps the user adjust the height of the harness’s spine as needed.

**Ventilated**
The Harness is built with a special 3D EVA sponge and mesh system for maximum airflow and ventilation.

Quick release buckle
The OR-48 is the first accessories bag in the world that can be transformed into a mobile audio workstation.

The OR-48 was designed to carry audio users’ accessories to their location, along with their audio bag and mixer, boom poles and cables. It has a strong, built-in trolley system and heavy-duty wheels, together with a padded shoulder strap. ORCA audio accessories bags are highly protective, with an external aluminum frame, internal honeycomb frame, layers of foam and EVA.

The bags have a flexible internal divider system that can be configured according to the user’s needs, two external pockets to store extra accessories, and two special external pockets to hold any boom poles.

The OR-48 comes with a special “tray” at the top that is covered with zippered mesh, allowing extra space for accessories and protection for the audio accessories from the top part of the bag. The tray can be used outside as a “table” to help audio users operate their mixer on location. The bag comes with a specific holder for headphones and LED lights. Digit locker included.

ORCA Bags OR-94 is the perfect portable - chair that can be used anywhere.

The chair can hold up to 120Kg. It is built to last with 3 strong aluminum legs and a sturdy Nylon top cover, and folds away into a handy carrying pouch in just a few seconds. Can be used with ORCA Bags OR-48, ORCArt workstation, or the OR-14 large camera bag with tray.

**Model: OR-48**

- Webbing with SR buckle to secure boom pole
- Special pocket with bungee cord to hold any size of Boom Pole

AUDIO ORGANIZER POUCH

MODEL: OR-19

The ORCA Audio Organizer Pouch can be used to securely store microphones, connectors, cables, CF cards and more. Each of the 5 pouches has a zipper. The two top pouches can be disconnected from the main pouch holder if needed. The main hook can be used to hang the pouch conveniently from your ORCART = OR-48. The pouch is well-padded to protect the equipment inside. Lightweight and easy to use.

Clear pockets to store audio accessories and microphones.
The ORCA Audio Capsule Pouch was designed to carry and protect your capsules and other small audio accessories.

The pouch incorporates a thermoforming shield that protects the items that it was designed to store inside: CF cards, 3 capsules, small windshields, audio clips, small tools and more. The pouch can also be used to store small external hard drives and XQD cards.

OR-91 PROTECTIVE CASE FOR MEMORY CARDS

The OR-91 Protective Case is made of hard plastic and built to hold up to 4 SD, 4 CF and 4 micro SD cards. It comes with a foam-fitted, shock resistant system and padding inside.

**ORCA CAPSULES AND ACCESSORIES POUCH**

The ORCA Hard Shell Accessories Bag was designed to carry and protect any sensitive equipment to the desired location.

The top and bottom of the bag are equipped with thick plastic thermoforming boards, which provide ultimate protection for the equipment stored inside. Each side is fitted with a honeycomb frame, giving the bag 360-degree protection. The bag comes with a soft carrying handle and a padded shoulder strap.

Inside, there are 3 dividers that allow the user to arrange the bag to suit their specific needs. On the inside top cover, there are 3 pockets for extra storage. The top pouches can also be removed.

The bag is ideal for storing wireless audio systems, wireless video systems, hard drives, headphones, small mirrorless cameras, microphones, small chargers and batteries, lenses or any sensitive gear.

**ORCA WATER/SAND BAG**

**MODEL: OR-81/81B**

OR-81:
The ORCA sand / water bag* (81B) has been designed to carry sand bags to any location.
The bag is made from durable material with reinforced binding straps.
Features dual layers of hook and loop fasteners to avoid any sand leakage.

Approx. 3 liters (0.79 gallons) water bladder

OR-81B:
How many times have you bought a sand bag locally and left it on location because it was too heavy to fly with you? The ORCA R&D Team have developed a solution for the easy transportation of sand bags to any location, using special durable and easy-to-handle water bladders. Each water bladder can hold up to 3 Liters/0.79 Gallons = 3Kg/6.6LB (up to 6Kg for both sides).

Please note: The OR-81B is sold separately*

**CAMERA LCD HOOD**

**MODEL: OR-50/52/54/56**

Designed to help camera operators view images on the LCD screen when shooting outdoors in direct sunlight. The hood is easily attached to the camera’s LCD.

Rubber straps for easy fitting on camera LCD

Long lasting EVA material
