### OR-270 LOW PROFILE AUDIO MIXER BAG

MODEL : OR-270

The Orca Low Profile Mixer Bag, OR-270, is a part of the ORCA low profile audio mixer bag collection (OR-268 /270/ 272). The bag was designed to hold, protect & transport small mixers such as: Sound Devices Mix-Pre 3M ii & 6 M ii or similar size mixers, together with the MX-L battery mount.

The OR-270 is ideal for music recording or a simple, few channels recording.

The bag is very lightweight, with access from all sides.

Features back and front pockets to hold a small battery or dual wireless receivers.

Rigid internal structure for maximum protection

Main features:

- Lightweight and Low-profile design
- Rigid internal structure
- Access from all sides & Full-zipper side access
- Back and front pockets for battery & dual wireless receivers
- Top Velcro straps to secure the mixer inside the bag.
- Shoulder strap.
