OR-264 LOW PROFILE AUDIO MIXER BAG for Zoom F3

The Orca OR-264 is a compact and lightweight audio mixer bag designed to store, protect, and transport the ZOOM F3 portable mixer while allowing ease of operation. The bag is ideal for field recording on the body, connected to the cold shoe of a camera or mounted on a stand. The bag has large windows on the front and back to allow viewing of the monitor and access to the batteries. Lastly the OR-264 offers all around direct access to connect all need accessories.

Main Features:

- Rigid aluminum internal frame for maximum protection
- Top elastic webbing to hold wireless receivers
- Hook and loop straps to secure the mixer in the bag
- Transparent TPU top cover and shoulder strap
- Easy access from all sides, including U shape middle zipper
