### OR-101 Quick Rain Cover for extra small video cameras

### OR-103 Quick Rain Cover for small video cameras

The Orca Quick Rain Cover for Small video cameras is designed to cover small video cameras and provide protection from: rain, dust, wind, and other elements. It is easy to use and allows full operation of the camera controls and functions. It is made from a waterproof High-Density nylon fabric material with TPU & crystal-clear large window panels. The simple and easy to use design allows for easy installation and easy access to the camera controls while giving perfect monitor viewing at any angle. It slips quickly over the camera, offering excellent protection of the camera when shooting outdoors.

The front sleeve has a pull tight bungee cord system to secure the front lens hood and rubber sleeves at the front and back allowing the camera operator to expose the back viewfinder and the front audio microphone. The lower part of the cover is made with hook & loop to seal off the bottom of the camera when using any camera mounting support while still allowing easy access from the bottom. ORCA rain covers have successfully protected small video cameras from a variety of different weather conditions.
