### OR-83V/H Sand/Water Bag & OR-81B Water Bladder

How many times have you needed a sandbag, but found it was too heavy to fly with, so you purchased one locally and left it on location? The Orca OR-83V (Vertical) or OR-83H (Horizontal) sand/water bag was designed to help carry sandbags to any location, with an option to fill the bag with water or sand. The bag is made from one cavity of durable tarpaulin material with a binding strap, so it is easy to fill with sand or water bladders (\* Bladders are sold separately).

\* The OR-81B Water Bladder is **sold separately** and can hold up to 4 liters (about 1 gallon). Two bladders are needed to fit one OR-83V or OR-83H (one bladder in each side).

Model	External: cm / Inch	Weight Kg/Lib
OR-83V	Length : 70cm / 27.5" Width : 30cm / 13.3"	0.5Kg / 1.1 LB
OR-83H	Length : 57cm / 22.5" Width : 38cm / 15.3"	0.5Kg / 1.1 LB
