## OR-107 Quick Rain Cover for Professional Video Cameras

The Orca OR-107, Quick Rain Cover for professional video cameras is designed to cover and protect professional video cameras from: rain, dust, wind, and other elements. It is easy to use and allows full operation of the camera controls and functions. It is made from a waterproof High-Density nylon fabric material with crystal-clear large window panels. This simple and easy to use design allows for easy installation and easy access to the camera controls while giving perfect monitor viewing at any angle. It slips quickly over the camera, offering excellent protection of the camera when shooting outdoors.

The front sleeve has a pull tight bungee cord system to secure the front lens hood. A side sleeve at the front side allows the camera operator to work with the viewfinder and the front audio microphone. The lower part of the cover is made with hook & loop to seal off the bottom of the camera while still allowing easy access when mounted to any camera mounting support.
