OR-134 ORCA BAGS Camera Assistant CASE

The Orca OR-134 was Design and development with Mr. Valentino Vigniti (DoP), to safely store your equipment and accessories. The bag is well-protected and appropriate for various weather conditions. Lenses, Mattbox, batteries, chargers, slot machines, dust, and more are all perfectly protected by the stiff padding that surrounds the bag. The top tray makes it possible to store "accessible" accessories for convenient use. There are numerous loops, D-RINGS, webbing, and pockets all over the bag to make it easier to store and carry all kind of accessories. The interior can be shaped as needed for the task using the internal adjustable dividers, the long divider and has an additional zipper pocket.
